

Psychology Graduate Courses
Summer 2024-Spring 2025

Summer 2024

Research Credits

The vast majority of Summer classes available are research credits with no specific days/times. Choose these with guidance from your major professor.

Most professors do not teach in Summer. When picking a section, first see if your major professor has a section available. If they do not, check to see if your area head has a section available. If they do not, select the section taught by the Director of Graduate Study (Dr. Jon Maner).

Most students take Summer classes in Summer C, which is the full 12-week summer semester that extends from May-August. Please confirm you are choosing sections from the correct part of the summer semester when selecting these classes.

PSY5900 Individual Research Study (letter graded)	PSY5908 Directed Individual Study (pass/fail)	PSY5973 Thesis (pass/fail) <i>*6 hrs minimum required for MS. 2 hrs must be completed in the semester of thesis defense.</i>	PSY6980 Dissertation <i>*Doctoral candidates must enroll in a minimum of 2 hrs of dissertation every semester until they defend the dissertation</i>
